

FINANCIAL AID

An excellent education is a major investment. The Student Financial Services office works with all students and their families to develop realistic plans for financing this lifelong investment in personal and professional development. Plymouth State University welcomes students from a wide spectrum of economic backgrounds and we are committed to helping them afford their education. We are a student-centered office dedicated to helping students and their families understand and manage the aid application process, payment plans, student employment, parent and student loans, and more. Our counselors are here to assist students and families in determining the best way to finance a Plymouth State University education.

In addition to the Academic Catalogue, we recommend you bookmark the PSU Student Financial Services website (<https://www.plymouth.edu/student-financial-services/>) for more information regarding the financial aid application process, policies, and renewal criteria.
