

ECONOMICS MINOR

Innovation and Entrepreneurship

The Economics minor is designed to provide students with greater adaptability for dealing with challenges in a competitive global economy. The curriculum delivers economic reasoning and analytical skills that can be applied to problems and issues throughout the entire economy. It also adds a social science perspective to the business major's outlook. People with a sound understanding of economics have a competitive edge in careers and academic pursuits.

Please see complete information on all of the requirements (<https://coursecatalog.plymouth.edu/undergraduate-programs/minors/>) to earn a minor at Plymouth State University.
